Mumbai, India | +91-7860514180 | vivek.pal.dev@gmail.com | linkedin.com/in/vivekpal-404478273 | vivekpalportfolio.netlify.app

Professional Summary

Full Stack Web Developer with **2.5+ years** of experience building and deploying scalable web applications and REST APIs. Delivered 10+ production projects across event management, logistics, healthcare, and e-commerce domains using **ASP.NET Core, ASP.NET MVC, C#,** and **MS SQL Server**. Passionate about clean architecture, performance optimization, and continuously adopting new technologies.

Technical Skills

Languages: C#, JavaScript, HTML5, CSS3, SQL (MSSQL)
Frameworks & Libraries: ASP.NET Core, ASP.NET MVC, Bootstrap, jQuery, Tailwind CSS
Backend & APIs: REST API Design & Integration, Web API
Databases: MS SQL Server, Stored Procedures, Query Optimization
Tools & Design: Figma, Git, Visual Studio, Postman | **Concepts:** OOP, MVC, Agile, SDLC

Work Experience

JMM Infotech Mumbai, India
.NET Developer (Internship → Full-Stack Developer) *June 2023 – Present*

- Developed and shipped **10+ production web applications** end-to-end using **ASP.NET Core** and **ASP.NET MVC**, spanning event management, logistics billing, lenses management, and camera rentals.
- Designed and integrated **RESTful APIs** consumed by web and mobile clients, ensuring scalable and maintainable service communication across distributed systems.
- Architected **MS SQL Server** database schemas; wrote optimized stored procedures handling high-volume transactional workloads.
- Built responsive, accessible UI components using **Bootstrap, Tailwind CSS,** and **jQuery**; translated **Figma** wireframes into pixel-perfect interfaces across all projects.
- Reduced bug resolution time by enforcing structured error handling, centralized logging, and robust input validation patterns application-wide.

Projects

GoCamle — Camera Rental Admin Portal | *ASP.NET MVC, REST API* 2023
- Built web admin panel for a camera rental platform with mobile app; managed inventory, bookings, and user operations via REST API integration.

Planify — Event & Project Management Platform | *ASP.NET Core, REST API, MSSQL* 2025
- All-in-one platform covering user management, task tracking, communication, locations, and notifications — flexible for weddings, corporate events, and project workflows.

Surgicon — Eye Lenses Management System | *ASP.NET Core, MSSQL* 2025
- Built smart inventory, transaction, and records management system for optical businesses, streamlining end-to-end sales and communication workflows.

ISA Logistic — Billing Management System | *ASP.NET Core, SQL Server* 2026
- Developed billing, invoice generation, financial data management, and reporting modules for a logistics firm; automated invoicing workflows end-to-end.

RK Classes — Educational Management System *Flutter, Dart, ASP.NET Core,MS SQL Server* 2026
- Developed a cross-platform mobile application using Flutter and a responsive web portal using ASP.NET Core for educational institute management.
- Implemented backend APIs, database integration, and core application functionalities to streamline academic and administrative operations.
- Independently managed end-to-end development, from gathering client requirements to implementation, testing, and deployment.

Education

Ramniranjan Jhunjhunwala College, University of Mumbai Mumbai, India
Bachelor of Science in Information Technology (B.Sc. IT) *July 2023 – April 2026*

Patkar Varde College, University of Mumbai Mumbai, India
Master of Science in Information Technology (M.Sc. IT) — Pursuing *July 2026 – Expected 2028*

Certifications & Achievements

- **SQL Certification** — Advanced querying, indexing, joins, and database optimization.
- Maintains a **technical blog** (linktr.ee/codewithvivek07) on .NET development, API design, and web technologies.
